JOIN OUR MOVEMENT, PROTECT THE EARTH'S RESOURCES

The Global Recycling Foundation supports the promotion of recycling, and the recycling industry, across the world to showcase its vital role in preserving the future of the planet.

We were formed by the Bureau of International Recycling (BIR) in October 2018 as a private Foundation. Everything we do will focus on innovation, education, progress and action.

Our mission is to support the promotion of recycling, and the recycling industry, in order to fund educational and academic studies and awareness programmes, such as Global Recycling Day, which focus on the sustainable, circular and inclusive development of recycling across the world.

We hope that in time, our action will result in a change in attitudes towards recycling across the world, playing a crucial role in preserving the planet's future by engaging with brands and organisations to drive innovative practices that promote carbon reduction and inspire behaviour change globally.

There are many ways in which you can get involved and join our movement to protect the Earth's resources. If you're looking for a more bespoke package than that set out on our Headline Sponsor or Friends of the Foundation donation package, get in touch with us. We'd love to talk about how we can, together, make a difference.

To find out more and discuss your ideas, please contact the Global Recycling Foundation team on sponsorship@globalrecyclingfoundation.org.
